6.5.1 Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

In order to enhance the quality of the institution in all spheres, various quality assurance strategies were initiated by the IQAC. All the faculty members are encouraged to participate in Orientation, refresher courses, Workshops, Seminars and conferences related to the teacher-learning process and research.

Best Practices

Title of the practice: Awareness Program on Code of Conduct 2021-2022

Objectives of the practice: First year students go through a big leap from school to college in their education career. College conducts various orientation programs for these students. Due to unavoidable situation of Covid-19 pandemic the orientation programs were conducted online. This platform provides facility to guide the students about the campus orientation, rules for college behavior and overall representation at college.

To meet this objective "An Awareness Program on Code of Conduct" was organized by IQAC. For students the program was organized online. Faculty attended the program offline.

Best Practices II

Title of the practice: World Technology Day 2022

Objectives of the practice: With Education students need to be equipped with all necessary knowledge to develop them for their future. With adaptation of time technology is necessity. During Covid-19 pandemic the whole education system was working with technology. To deliver the knowledge of technology to students is responsibility of every teaching institute. World Technology Day is an appropriate opportunity for enlighten the students the way of technology with its benefits and risks.

To meet this objective "A Program On World Technology Day" was organized where through lecture, quiz competition and power point presentation students were enlightened to technology.

Best Practices III

Title of the practice: Two Days Workshop on Web Application Prototype Development Using Bootstrap

Objectives of the practice: Web Application is important concept in today's technological era for learning. Web Development and Web Application, Customization of web pages, HTML and Java Language these learning objectives are important and significantly needed. Knowledge of bootstrap is prime for web developing.

To meet this objective "Two Days Workshop on Web Application Prototype Development Using Bootstrap" was organized. The workshop was organized online due to Covid-19 pandemic situation.
